

Workshop on Brain, Computation and Learning

January 9-13 2017

nmi@math.iisc.ernet.in

<http://events.csa.iisc.ernet.in/bcl2017>

APPLICATION DEADLINE

Dec 15 2016

SPEAKERS

S. P. Arun IISc Bangalore

Venkatesh Babu IISc Bangalore

Upinder Bhalla NCBS Bangalore

Arnab Bhattacharyya IISc Bangalore

Yves Boubenec École Normale Supérieure

Sridharan Devarajan IISc Bangalore

Ambedkar Dukkipati IISc Bangalore

Hynek Hermansky Johns Hopkins Univ

Vasant Honavar Pennsylvania State Univ

C. V. Jawahar IIIT Hyderabad

Patrick Kanold University of Maryland

Stéphane Mallat École Polytechnique

Nima Mesgarani Columbia University

Pratik Mutha IIT Gandhinagar

Rishikesh Narayanan IISc Bangalore

Srdjan Ostojic École Normale Supérieure

Balaraman Ravindran IIT Madras

Maneesh Sahani Univ College London

Christoph Schreiner UC San Francisco

Chandra Sekhar Seelamantula IISc Bangalore

Shihab Shamma University of Maryland

Sujit Sikdar IISc Bangalore

Partha Talukdar IISc Bangalore

ABOUT THE WORKSHOP

Computational approaches to understanding brain function form an important and growing area of interdisciplinary research. This workshop on Brain Computation and Learning is aimed at creating this useful dialogue between neurobiologists and computer scientists and educating research students of each area with relevant topics of the other. The workshop would allow young researchers to understand the diverse themes of research and appreciate the close relationships between these apparently distinct themes.

WHO CAN APPLY

The workshop is open to Masters and PhD students, postdocs and faculty working in Neuroscience, Electrical Engineering, Computer Science and related areas. Exceptionally motivated undergraduate students would also be considered for participation. Selected participants will be reimbursed travel, stay & boarding costs.

ORGANIZED IN CONJUNCTION WITH

2nd workshop on Computational Brain Research

January 3-7 2017, IIT Madras
