BCL 2019: Third Workshop on Brain, Computation and Learning

Indian Institute of Science, Bangalore | June 24–29, 2019

APPLY ONLINE http://events.csa.iisc.ac.in/bcl2019/

SPONSORS
Pratiksha Trust & IISc Bangalore

APPLICATION DEADLINE
April 30 2019

SPEAKERS

Pulkit Agarwal UC Berkeley
Siddharth Barman IISc
Vineeth Balasubramanian IIT Hyderabad
Shantanu Chakrabartty WUSTL
Stephen David OHSU
Sachin Deshmukh IISc
Vasant Honavar Penn State
Julian Jara-Ettinger Yale
Kishore Kuchibhotla Johns Hopkins

Arvind Kumar KTH Stockholm
Mayank Mehta UCLA
Vinay Namboodiri IIT Kanpur
Anirvan Nandy Yale
Srikanth Padmala IISc
Baranidharan Raman WUSTL
Maneesh Sahani UCL
Chetan Singh Thakur IISc
Vatsala Thirumalai NCBS
Mark van Rossum Univ. Nottingham

ABOUT THE WORKSHOP

Computational approaches to understanding brain function form an important and growing area of interdisciplinary research. These approaches and associated techniques have acted as a melting pot for researchers from disparate disciplines to come together and address one of the grandest challenges of the 21st century. The grandness of the challenge and the requirement on diverse forms of expertise has deemed that such endeavors require synergistic interactions among neurobiologists and computer scientists. The BCL workshop series is aimed at creating this useful dialogue between neurobiologists and computer scientists, and at educating research students of each area with relevant topics of the other.

WHO CAN APPLY

The workshop is open to Masters and PhD students, postdocs and faculty working in Neuroscience, Electrical Engineering, Computer Science and related areas. Exceptionally motivated undergraduate students would also be considered for participation. There is no registration fee and participation is free for applicants who are selected. Selected out-station participants will be provided accommodation.
